ARTILLERYMEN PUT UP POOR GAME

Opening Day of Baseball Season Gives an Exhibition of Best Play in Honolulu.

"Play ball!" The old cry echoes o'er the peaceful vale of Punahou, and from the bleachers comes a roar as rows of rooters yell Oh! The batter grasps the willow club, the pitcher strikes an attitude, the catcher gives his hands a rub, the umpire stands with keen eyes glued upon the play; the ball has gone, and once again the season's on!

The knocker with his noisy knock, the kicker with his mulish kick, the talker with his bally talk upon the seats as flies are thick. The ladies in their smart attire, enthusiasm in their eyes, are there in bevy to admire and laud the players to the skies, and spank their dainty hands when one of handsome figure makes a run.

The old excuses now are fed to bosses from employees' lip; The grandma on her dying bed, the wife at home down with a gripe. That dying grandma will be spied beside her grandson sitting there, the sick wife by her husband's side, and how those frauds will blush and stare to catch their old employers' eyes lit up with half-amused surprise!

The game is on, the season's here, the stricken ball cuts through the air, the batters fan the atmosphere, the runners 'round the bases tear, the umpire calls the strikes and balls, puts runners out when they are in, nor heeds the rooters' angry squalls that they will kill him sure as sin! The season's here, the same old muss, and on the seats the same old us.

What with a pleasant day, splendid arrangements, a fine crowd of people and at least one fine game, the baseball season started off yesterday in good shape and it was predicted on the field by baseball enthusiasts that the series arranged for is bound to prove an immense success.

There were two games yesterday as there will be during all of the twenty-three days which make up the season. The first was between the Artillery and Honolulu Athletic Clubs and the second between the Kamehameha and Maile-Ilimas teams. The first was a very tame and disappointing contest, the soldiers showing that they have by no means mastered the great American game. However, any unpleasant impression that might have been left by this game was dispelled by the second. The latter was really the very best exhibition of fine ball playing that has been seen in Honolulu for years.

The game between the Artillery and Honolulu Athletic Club started soon after 1:30 o'clock, the hour announced. At that time there were in the neighborhood of four hundred people in attendance. When the second game was started at about 3:45 o'clock, there were fully six hundred people present. Police officers under the direct supervision of Deputy Sheriff Chillingworth, president of the Baseball League, were present on the grounds, and the splendid manner in which they attended to their duties showed that the Police Department has made up its mind that there shall be no rowdiness of any kind at any of the games.

Artillerymen Had No Show. The first game started off with Messrs. Samuel Mahelona and Marcellino as the umpires, and from start to finish, the Artillerymen did not have a ghost of a show. The first five innings were nothing in the world but a running race for the Honolulu Athletic Club.

Another Short Story. It was another short story for the Artillerymen. Brown struck out. High got base on balls. Smith hit out to right and got to second, but Gleason secured the ball in time to send it to third for Brown, who was fairly caught. Davis struck out in three successive strikes. The hit made by Smith in this inning was the first secured off Joy.

In the beginning of the seventh, Price hit far out between center and right field. The center fielder made a splendid run and bagged the ball, receiving most enthusiastic applause. Aylett sent a mild grounder to first, who was but four feet beyond the base when he caught the ball. Instead of running to his base, he turned around to first and simply looked, allowing Aylett to make his base; Williams flew out to center field and Joy made a safe hit out into right field. Louis went out on a slow grounder to first.

Jones flew out to Hansman in center. Guphill made a two-bagger down into right. Pliny flew out to Williams at short, who turned quickly to second, threw the ball and caught Guphill.

The Eighth Inning. In the eighth Leslie hit far out into left. The fielder misjudged the ball and the runner secured first without trouble. Thompson flew out to short. Gleason hit to third. The baseman then threw over first's head, allowing Leslie to make home and advancing Gleason to third. Hansman's high fly was dropped by center and Gleason came home. Price flew out to second. Aylett sent a slow grounder to first and was easily caught.

Behr for the Artillerymen struck out and Bennett followed suit. This was the third time Joy struck out Bennett. Brown made it three of a kind.

In the ninth, William sent a hot one

picture printing and developing FOR AMATEURS

Our best argument to get your trade is the class of work we turn out.

We do all this work ourselves and give it our particular attention. If the picture is of a pretty view or has some association, it cannot be too well finished. You will want it done right and we are the one to do this.

Republican Committee Is FIRM IN FAVOR OF Primaries That Are Liberal

Section as Adopted. Sec. 17. No member of a precinct club shall be entitled to vote at a primary unless his name shall have been enrolled in the club, but any person who will be entitled to vote at the next general election shall have the right to have his name enrolled in the club of the precinct in which he will be entitled to vote up to the time of the closing of the polls.

The Republican Territorial Central Committee of Hawaii met in headquarters last evening to continue the discussion of rules and regulations and transact other business of importance. Twenty-five members and proxies were present. Chairman J. A. Kennedy presided, calling the meeting to order about 8 o'clock.

After the calling of the roll the chairman called for a report from the committee appointed to call upon the president of the Board of Health and the Governor with reference to the removal of Father Wendelin. The report was read by T. McCants Stewart and was accepted, being as follows:

Father Wendelin's Case.
Honolulu, Hawaii.
Gentlemen: Your committee, appointed to call upon the President of the Board of Health and the Governor, with reference to the removal of Father Wendelin and the operation of the rock crusher, beg leave to report that they called upon Dr. H. C. Sloggett, president of the Board of Health, at his private office and were cordially received by him, but he declined most positively either to discuss the matter with us or to listen to anything we had to say in reference thereto. He said that it was a matter in which the whole Board is concerned, and invited us to attend its next meeting and present it there.

We also called upon Gov. Cooper, who received us heartily and discussed the matter freely with us. He expressed his gratification at our call, saying at the same time that it is the duty of citizens to present to the Executive their views upon public matters, and that so far as he was concerned he would always welcome them.

With reference to the matters discussed, he said he hoped that they would be satisfactorily adjusted, and the committee left the Governor, satisfied that he would do all in his power to bring about a harmonious settlement.

Reconsideration Recommended.
Your committee deem it unnecessary to follow up the matter any further and beg leave to submit the following resolutions with a recommendation that the same be adopted, namely:

Resolved, That it is the sense of this committee that the Board of Health would promote the public good and the peace and welfare of the Leper Settlement by reconsidering the resolution with reference to the removal of Father Wendelin; and

Resolved, That the Board would further promote the public good if it would devise some plan for the temporary accommodation at the Kalihi Camp, or at some other place, of such patients as are specially affected by the operation of the crusher, so that the same may be operated temporarily, until the urgent demand for road material be met, or until the Legislature shall take action and provide for the removal of the asylum or the rock crusher.

Resolved, That a copy of these resolutions be sent to the Board of Health by the Secretary of this committee.

Dated May 3d, 1902.

Respectfully submitted,
JAMES A. KENNEDY,
T. McCANTS STEWART,
H. P. BALDWIN,
Per C. H. DICKEY,
His Proxy.

Fifth District Rule.
A communication calling attention to a rule adopted by the Fifth District Committee of the Republican party was then read by W. J. Coelho. This communication was received, read and placed on file, as follows:

Honolulu, T. H., May 3, 1902.
J. A. Kennedy Esq., Chairman Republican Territorial Central Committee.

Sir: Your attention is called to the following rule adopted by the Fifth District Committee of the Republican party, to-wit:

"Article VI. Precinct Club Rules.—Each precinct club shall make its own rules; but no precinct club shall make any illegal or inequitable rule, or any rule requiring any person to pay a fee as a prerequisite to membership, or any dues, or to sign the club roll prior to the day fixed for a primary election or a meeting for the transaction of any business whatsoever."

The said rule is still in force.

The clause to which your particular attention is directed is the one against the making of any rule requiring any person "to sign the club roll prior to the day fixed for a primary election," etc.

Fraud Easily Averted.
At the time the above rule was discussed, the members of the committee strongly expressed against the closing of the precinct club rolls to persons who wish to vote at primaries for candidates who had been nominated at meetings previously held for the purpose, and who are willing to sign

G. M. COOKE IS INJURED

HONOLULU BANKER HAS HIS ARM FRACTURED

Mrs. Cooke and Mrs. Montague Turner Badly Shaken Up in Rear End Collision Between Two Teams—Horse Shot.

C. M. Cooke and wife and Mrs. Montague Turner met with an accident yesterday afternoon while returning from Mr. Cooke's Luakaha residence. Both rigs were smashed, one of Mr. Cooke's horses had to be shot, and Mr. Cooke escaped with a broken arm. Mrs. Cooke and Mrs. Turner did not suffer serious harm, though both were badly shaken up.

Mr. and Mrs. Cooke and Mrs. Turner were returning from Luakaha. Mr. Cooke was driving his span and Mrs. Turner was ahead in her phaeton. When near the half way house some part of the harness of Mr. Cooke's team broke, letting the carriage onto the horses' heels. The team broke into a run. Mr. Cooke, appreciating the danger to Mrs. Turner as well as to himself and wife, endeavored to turn the horses into an embankment. He was too late, however, to avoid a collision. His carriage turned a complete somersault, and the running gear of Mrs. Turner's rig was badly shattered. When the occupants of the carriages gathered themselves together to take

account of stock, it was found that one of Mr. Cooke's horses had a broken leg. The animal was shot by a Portuguese living near by. The carriages were wrecked, and hacks were ordered from town to take the party home.

While the accident was serious enough, had the horses gone another 200 yards in their mad career nothing but a miracle could have saved Mr. and Mrs. Cooke from being thrown over an embankment onto the rocks of the stream that skirts the pali road. Wild rumors were afloat last night, one to the effect that Mr. Cooke had both legs broken. When the Bulletin called up the Cooke residence last evening Mr. Cooke responded with, "Hello, I am in the land of the living."

From the account given by a gentleman who arrived on the scene shortly after the collision, it was a piece of good luck assisted by Mr. Cooke's cool headed work that more serious results did not attend the disaster.

CHARLES NOTLEY BURIED

The funeral of the late Charles Notley was held from St. Andrew's Cathedral yesterday afternoon at 3 o'clock. The Rev. P. H. Tompkins of Hamakua and the Rev. Canon Kitchell officiated. Many beautiful flowers covered the casket. The pall bearers were Cecil Brown, F. M. Swamy, J. H. Soper, T. C. Davies, S. F. Chillingworth and W. A. Kinney. Among those who attended the services were Governor Clegg, Col. W. F. Allen, F. A. Schaefer, Samuel Parker, British Consul Hoare, Prof. Lyons and Judge Stanley. Wray Taylor played the organ and among the hymns sung was "Just as I am, without one plea."

Hawaii's Great Future In Oriental Affairs

THE TRANS-PACIFIC HALF-WAY HOUSE Enormous Volume of Merchandise to Pass Honolulu—Value of an Isthmian Canal.

The following table shows the exportation of leading articles to China, Japan, Asiatic Russia, Australasia, Hawaii and the Philippine Islands in the fiscal years 1890 and 1899 respectively:

Articles—	1890.	1899.
Iron and steel and manufactures of	2,928,971	13,210,552
Cotton cloth	1,532,181	10,265,262
Mineral oils	7,246,111	7,570,868
Breadstuffs	3,521,936	7,491,021
Cotton unmanufactured	85,211	5,909,228
Tobacco, manufactures of	2,017,503	5,688,048
Wood and manufactures of	2,117,058	2,817,906
Chemicals	1,070,462	1,802,328
Leather and manufactures of	732,260	1,249,660
Paper and manufactures of	128,277	1,542,238
Provisions	518,190	966,775
Carriages and cars	424,952	975,546
Agricultural implements	575,254	824,342
Fertilizers	114,988	736,531
Fruits and vegetables	441,430	683,759

"The war with Spain and the crisis in China have demonstrated beyond question the importance of both Hawaii and the Philippines. It has proved their strategic and political value," said Hon. John Barrett yesterday to a representative of the Sunday Bulletin.

Mr. Barrett was formerly United States Minister to Siam and is now Commissioner General for the Louisiana Purchase Exposition. Before undertaking this last mission he was Plenipotentiary Delegate of the United States to the Pan-American Congress in Mexico.

"All maps of important lands are interesting, but none is more surprising than that of the incomparable broken coast that reaches from Australia to Siberia, from Melbourne to Vladivostok. Its supreme revelation to the man who has not before investigated these Asian-Pacific shores is this: The Philippines are the geographical and strategic center of the Asiatic and Australian Pacific coast line that has an unrivaled extent of 6000 miles, has debouching upon it a population of over \$50,000,000, including India, and supports already a foreign commerce exceeding \$2,500,000,000 per annum.

Density of Population.
"From this undeniable premise we draw another conclusion which has even a more direct bearing upon the value of the islands to the United States: the Philippines being the geographical and strategic center by reason of physical location, will become under American influence the commercial center of the trans-Pacific coasts, seas and millions of people. Just as Hawaii will hold a position of supreme strategic and commercial importance in the mid-Pacific."

"The full scope of a 2000-mile radius from Manila, or the distance from New York to Denver, includes a pop-
